Miller

DEVELOPER

Hello im Andrew I'm a junior full stack web developer and part time student on full stack web development coding bootcamp with the University of Vanderbilt with newly developed skills in both front-end languages and back-end server side.

T

• EDUCATION

Full stack Web Developer Coding Bootcamp

University of Vanderbilt 2022-2022
6 month part-time immersive bootcamp applied to JavaScript. I have gained a deep understanding of web development and practical skills of the MERN stack and problem-solving through developing an enhanced portfolio of weekly mini-projects and three key projects. I have gained the ability and desire to pick up and learn new tech skills and technologies at a fast pace and incorporate them into projects.
